## *Western Briquette*

### **Erythorbic Acid FCC IV**

Formula:	C <sub>6</sub> H <sub>8</sub> O <sub>6</sub>	Mol. Wt.:	176.13
Description:	White or slightly yellow crystals or powder which darkens on exposure to air.		
Solubility:	Freely soluble in water; soluble in ethanol.		
Functional Use:	Preservative; antioxidant.		
Packing and Storage:	25 kg net in carton with inner PE bag.		
Analysis:	Assay (on dry matter)	99.0 % - 100.5 %	
	Specific rotation	-16.5° - -18.0°	
	Heavy Metals (as Pb)	10 PPM max	
	Loss on Drying	0.4 % max	
	Residue on Ignition	0.3 % max	
	Arsenic	3 PPM max	
	Lead	5 PPM max
